

## **CAPABILITIES NARRATIVE**

We are experts in laser cleaning, ablation, remediation, and restoration services, serving both government & commercial sectors. Our advanced laser technology enables precise, non-destructive cleaning, effectively removing contaminants, rust, paint, & coatings from various surfaces, including metals, wood, & stone, without damaging the underlying material. Our eco-friendly processes produce no secondary waste, supporting environmental sustainability & reducing project impact. Our team is composed of highly trained professionals with extensive experience in OSHA regulatory compliance, safety standards, & project management. We ensure that all projects are executed efficiently, on time, & within budget, meeting the rigorous demands of our clients. With a strong track record in delivering successful outcomes for government agencies & private clients, we offer innovative, reliable, & high-quality solutions, backed by exceptional customer service & state-of-the-art equipment.

## **SPECIAL EQUIPMENT/MATERIALS**

Our company utilizes state-of-the-art laser cleaning equipment, specifically designed for precision ablation and non-destructive surface cleaning. This advanced technology allows us to effectively remove contaminants, rust, paint, and other unwanted materials from various surfaces without causing damage to the underlying substrate. Our equipment is environmentally friendly, producing no secondary waste, and is capable of handling a wide range of materials, including metals, wood, and stone.

## **Statement of Capacity: Peak MD LLC a.k.a. Lazer Lift LLC**

### Overview:

Lazer Lift LLC is a leading provider of advanced laser cleaning, ablation, remediation, and restoration services. With a deep commitment to innovation, environmental stewardship, and precision, we offer unparalleled expertise and cutting-edge technology to meet the rigorous demands of government and commercial clients. Our services are specifically designed to address complex challenges in surface preparation, environmental remediation, and material preservation, ensuring the highest standards of quality and compliance.

### Technological Expertise:

At the core of our operations is our state-of-the-art laser technology, which enables precise, non-destructive cleaning and ablation. This innovative technology allows us to effectively remove contaminants, rust, paint, and other unwanted materials from a wide range of surfaces, including metals, wood, composites, and stone, without compromising the integrity of the underlying substrate. Our processes are eco-friendly, producing no secondary waste and significantly reducing the environmental impact of industrial operations. This positions Lazer Lift LLC as a leader in sustainable and efficient surface treatment solutions.

### High-Level Expertise and Professionalism:

Our team consists of highly trained professionals with extensive experience in laser technology, environmental remediation, and project management. We are well-versed in the complexities of OSHA regulatory compliance, ensuring that all projects adhere to federal, state, and local standards. Our expertise extends to handling hazardous materials, site restoration, and the preservation of historically significant assets. This comprehensive skill set allows us to deliver exceptional results on time and within budget, regardless of the project's scale or complexity.

### Proven Track Record:

Lazer Lift LLC has successfully completed high-profile projects in collaboration with KO Logistics LLC, Sunrise Innovations LLC, and KO Services LLC, delivering results that consistently exceeded expectations. These partnerships underscore our ability to work seamlessly with other industry leaders, bringing together complementary strengths to achieve outstanding outcomes. Our work with KO Logistics LLC involved

the meticulous ablation and restoration of industrial equipment, enhancing operational efficiency while extending the lifespan of critical assets. For Sunrise Innovations, we provided eco-friendly laser cleaning solutions that significantly reduced downtime and environmental impact. Our collaboration with KO Services showcased our ability to deliver precise and efficient surface preparation services, critical for high-performance automotive applications.

#### Capabilities:

- Advanced Laser Cleaning & Ablation: Non-destructive removal of contaminants, rust, paint, and coatings from various surfaces.
- Environmental Remediation: Safe and compliant handling of hazardous materials, mold, and soot remediation.
- Site Restoration: Comprehensive restoration services, including historical preservation and surface reconditioning.
- Sustainability Focus: Implementation of eco-friendly processes, minimizing waste and environmental impact.

#### Commitment to Quality and Innovation:

Lazer Lift LLC is committed to continuous improvement and innovation. Our R&D team is dedicated to refining our processes and exploring new applications for laser technology, ensuring that we remain at the forefront of the industry. We prioritize customer satisfaction through transparent communication and tailored solutions. Our ability to adapt to the evolving needs of our clients and the industry has cemented our reputation as a trusted partner for government contracts.

#### Conclusion:

Lazer Lift LLC stands ready to bring our unparalleled expertise and innovative technology. Our dedication to excellence, environmental sustainability, and client success makes us the ideal partner for complex and high-stakes initiatives. We are fully equipped to meet and exceed the expectations of government agencies, delivering results that set new benchmarks in the industry.
